PRECISION TOOLING SOLUTIONS

COMPLETE MACHINING SOLUTIONS

BUILT FOR PRECISION

Advanced machining solutions for every application.
Engineered for accuracy, consistency and performance
in every cut.

OUR MACHINING SOLUTIONS

CNC TURNING

Precision turning solutions
for superior surface finish
and dimensional accuracy.

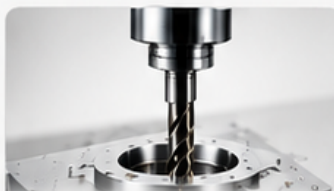

VMC MILLING

High performance milling
for complex shapes
with tight tolerances.

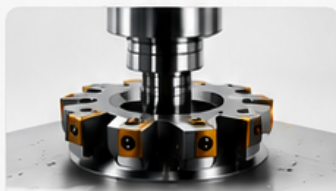

CNC DRILLING

Accurate drilling solutions
for better hole quality
and tool life.

THREADING & TAPPING

Reliable threading and tapping
for strong, precise and
clean threads.

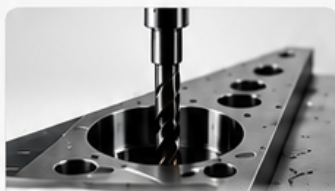

FACE MILLING

High feed face milling
for enhanced productivity
and smooth finish.

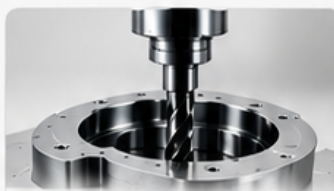

HIGH SPEED MACHINING

Optimized high speed solutions
for improved efficiency
and reduced cycle time.

DEEP HOLE MACHINING

Deep and precise hole
machining with excellent
accuracy and stability.

POCKET & PROFILE MILLING

Complex pocket and profile
milling for accurate
contours and shapes.

OUR PRODUCT RANGE

CARBIDE INSERTS

High precision inserts for turning, milling and grooving applications.

SOLID CARBIDE END MILLS

High performance end mills for roughing, finishing and profiling.

SOLID CARBIDE DRILLS

Precision solid carbide drills for high speed and accurate drilling.

U-DRILLS

Efficient deep hole drilling with excellent accuracy and chip evacuation.

REAMERS

Precision reamers for accurate hole sizing and superior surface finish.

HSS / HSCO DRILLS

High speed steel drills for general purpose applications.

HSS TAPS

Reliable taps for precise threading and long tool life.

THREAD MILLS

High performance thread milling cutters for accurate and strong threads.

SPECIAL TOOLS

Custom made special tools for unique applications and high performance.

OILS & COOLANTS

High quality cutting oils and coolants for better performance and tool life.
